

Ambassadors wanted!

As a student association, we believe in a strong student ambassador programme created by and for students. That's why we're looking for students to participate in this initiative, and you might be just the person we're looking for! Together, we can create a stronger social safety net for all students.

- *Have you learned to cope with challenging circumstances due to a disability?*
- *Are you interested in sharing your experience as a working student?*
- *Do you know students with a migration background, and are you offering them guidance and support?*
- *Or are you just very enthusiastic about helping other students?*

Whether you've learned to face a challenge, or you just like helping others, we invite you to apply to be an ambassador and utilise your skills and experiences to help other students in similar situations. You'll commit to the role of ambassador until the end of the academic year. However, you're – of course – always welcome to extend your ambassadorial role.
